## KELTY MENTAL HEALTH NEW SECTION "EMPOWERED PARENTING"

"As a parent or caregiver, you know your child best and already have what you need to promote their development and well-being. In our new section, you can learn more about what empowered parenting may look like for you, whether you're supporting your child's development, taking care of yourself, or building community."

"Empowered parenting doesn't mean being "perfect" or knowing all the answers – what matters most is being present, open, and compassionate. While we can't always control the ups and downs of life, we can build on our strengths to give our children the foundations they need to grow and thrive."

The aim of empowered parenting is to help build resilience, strengthen relationships with love and connection, and make space for emotions and communication. These skills start in childhood but can support your child throughout their life."

Check out the different categories:

- ↳ Social and Emotional Development
- ↳ Parent and Caregiver Well-being
  - Taking Care of Yourself
  - Working with Your Child's Healthcare and School Teams
  - Building a Support Network and Community
- ↳ A Mindful Approach to Parenting and Caregiving
  - Foundations of Mindfulness
  - Mindful Communication
