Transitioning from preschool or childcare into school can be particularly challenging for parents and their children when extra supports are required. Additional care is needed to ensure a smooth process and understand how to navigate the school system. This workshop is designed for parents of preschoolers and kindergarteners to learn what to expect during those first months of Kindergarten. Family Support Institute of BC (FSI) is a provincial not-for-profit society committed to supporting families who have a family member with a disability.

### WHAT TO DO ABOUT SCREENS IN SCHOOLS: PHONES, TABLETS AND FOCUS IN THE CLASSROOM

**WEDNESDAY, AUGUST 20 12:30 PM (PST)**

School phone bans. One-to-one devices. Class-time screen use. These hot-button issues are sparking debate around the country as educators and parents grapple with how device use during school time impacts students. But what do we know about the effectiveness of phone bans, and what do experts recommend for device use in the classroom?

Join Children and Screens for a timely #AskTheExperts webinar kicking off the Fall 2025 season, "What To Do About Screens in Schools? Phones, Tablets, and Focus in the Classroom" on Wed., August 20 from 12:30pm - 2:00pm (PST). A panel of teachers, administrators, and other education experts will:

- Discuss the nuanced issues surrounding phone bans and classroom devices;
- Offer practical guidance on how to balance school screen time to support learning, development, and well-being; and
- Equip parents with answers and insights to better support their child's use of devices at school.
