It will be 30 minutes jam packed with a sneak peek and a surprise freebie for you! We'll show parts of the 3-book set, share insights into how to use, and explore how the 20 story pairs (Let's Solve It! / We Solved It!) and teaching templates support kids in figuring out: What's the problem? NEW WEBINAR SERIES: FASD HOUSING SOLUTIONS

Part 1: What We've Learned So Far

"In Part 1, we will look back at our April 2024 session, which introduced the ChOoSE research initiative – a collaborative effort to co-create innovative housing solutions for people with FASD. We will revisit a presentation from a member of the CanFASD AFECT Committee, who shared his personal experiences navigating the housing system as an adult with FASD.

Following the recording, participants will get the latest updates on the new ChOoSE housing website and have the chance to ask questions live. This session will help everyone get up to speed and ready for Part 2 of the series in January 2026, where we'll move from learning to action."

"Part 2 will focus on the future of the ChOoSE project as we move into 2026. Attendees will hear the latest research advancements, implementation plans, and next steps to support real-world housing solutions for people with FASD. More details about Part 2 will be shared soon – stay tuned!"

BOOK CORNER THE INCREDIBLE KIDS (4 BOOK SERIES)

by Alexandra Hoffman (2023)

"Masterpiece: An inclusive kids book celebrating a child on the autism spectrum

"Masterpiece is an inclusive story featuring Samuel, a boy on the autism spectrum who sees the world differently than his peers. When Samuel's teacher asks his class to create a piece of art, it quickly becomes apparent that his beautiful way of looking at the world makes him a true masterpiece! Throughout the story, the other students in his class learn lessons of empathy, understanding and acceptance."

Big Dreams: an inclusive kids book celebrating girls in football

Sparkle: an inclusive kids book celebrating a child with dyslexia and dysgraphia

Marvelous: an inclusive kids book celebrating a child with ADHD "Marcus loves to build. Every material is an invitation to explore and every day is an opportunity to create. But, when it comes time to work on other activities besides building, he struggles to focus. When his teacher asks his class to draw a blueprint, Marcus completes the project in a way that makes sense to him. A perfect book to introduce kids to the many ways we can show our thinking, Marvelous celebrates a neurodiverse child with ADHD who thinks outside the box."
